1. Passive safety												
Airbag		0	0	0	0	0	0	0	0	0	0	Activation is dependent on the severity, direction and scope of an accident - front airbags for driver and front passenger - side airbags for driver and front passenger, integrated in the door-side seat backrest bolsters for all seat variants - head airbags for all 4 outer seats
Headrests, all seats		0	0	0	0	0	0	0	0	0	0	Note for rear seats: L-shaped headrests on all three seats
Three-point seat belts		0	0	0	0	0	0	0	0	0	0	- for all four seats - front including seat belt stopper - pyrotechnic seat belt tensioner - seat belt force limiter Note: refer to the country-specific offer
ISOFIX child seat mounting		0	0	0	0	0	0	0	0	0	0	anchorage for up to 2 ISOFIX child seats on the rear seat bench.
Antilock braking system (ABS)		0	0	0	0	0	0	0	0	0	0	- prevents locking of the wheels by regulating the brake pressure. This maintains the steerability of the vehicle. Including brake assist to help shorten braking distance by maximum braking force assistance in abrupt braking and full brake application.
Electronic braking force distribution		0	0	0	0	0	0	0	0	0	0	
Dynamic braking lights		0	0	0	0	0	0	0	0	0	0	under severe braking (brake application to avoid hazard) the brake lights initially flash, when the vehicle has slowed to an appropriate speed the hazard warning flashers are activated.
Dynamic Stability Control (DSC)		0	0	0	0	0	0	0	0	0	0	wheel-individual brake pressure regulation via controllable valves; more driver support via the additional functions drive-off assist, braking readiness, dry braking and fading compensation. - incl. Dynamic Traction Control (DTC) allows increased slip on the drive wheels to guarantee maximum propulsion via reduced control system intervention. - electronically controlled differential lock control (ELDC): simulation of a mechanical differential lock via braking intervention on the front axle with deactivated DSC. Allows higher traction when accelerating out of a bend.
Single-tone fanfare		0	0			0	0					
two-tone horn				0	0			0	0	0	0	
Crash sensor		0	0	0	0	0	0	0	0	0	0	disengages the centre lock function of the central locking system to facilitate the exit of occupants or expedite outside assistance, switches on the vehicle's interior lighting and activates the hazard warning flashers in order to warn other road users in good time. Activation of the safety battery terminal clamp. Fuel pump: automatic cut-off in crash situation
Cornering Brake Control		0	0	0	0	0	0	0	0	0	0	
3rd brake light		0	0	0	0	0	0	0	0	0	0	in LED technology in roof spoiler
Runflat indicator		0	0	0	0	0	0	0	0	0	0	passive monitoring of all 4 wheels with status indicator light

O = Start		Cooper	Cooper ALL4	Cooper S	Cooper S ALL4	Cooper D	Cooper D ALL4	Cooper SD	Cooper SD ALL4	Cooper S E ALL4	John Cooper Works ALL4
6. Technology · 6.6 E-mobility											
Electric motor										O	<ul style="list-style-type: none"> - supplementary electric drive (e.g. for operation in parallel with combustion engine or purely electric driving, approx. 40 km range). Refer to the official technical data (OTD) for technical specifications - installed in the rear - drives the rear wheels (electrified all-wheel drive) - 65 kW / 88 PS
Charging flap										O	<ul style="list-style-type: none"> - in side wall, front left - access to power charging socket - light ring for feedback of the charging statuses, search lighting function
Battery Certificate										O	The high voltage battery is distinguished by its long service life. However, if material defects occur to the high voltage battery within six years and within the first 100,000 km, your MINI contract partner guarantees to remedy this defect free of charge. Details can be found on the MINI Battery Certificate.
charger cable										O	<p>Mode 2 - cable as external charging line for socket connection. Length 5 m. Storage in the luggage compartment under the luggage compartment floor.</p> <p>Notes:</p> <ul style="list-style-type: none"> - plug combinations country-specific - refer to the country-specific offer
eDRIVE Button										O	<p>The eDRIVE button can be used to activate some functions manually in the following order:</p> <p>AUTO eDRIVE: AUTO eDrive is activated via the start/stop button during every startup. In AUTO eDRIVE, the vehicle is moved in hybrid mode in accordance with the different driving situations, i.e. in alternating operation with the internal combustion engine or electric motor and also in boost function, wherein the internal combustion engine is supported with the power of the connected electric motor when accelerating. The interplay of the engine and the motor takes place automatically.</p> <p>MAX eDRIVE: MAX eDRIVE allows purely electric driving with a speed of up to 120 km/h. In certain situations, the full acceleration speed can be deliberately exceeded by pressing the accelerator past the full acceleration point (kickdown). The internal combustion engine is automatically connected and the vehicle changes over to AUTO eDrive mode.</p> <p>SAVE BATTERY: If it is e.g. necessary to save the electric range for a later time of the trip, the current charging status of the high-voltage battery can be retained with this function. The vehicle only drives purely in internal combustion engine mode. During the journey, the internal combustion engine automatically charges the battery to up to 90% capacity. The battery is also charged via brake energy recuperation.</p>
High-voltage battery										O	
ALL4, electric										O	<ul style="list-style-type: none"> - petrol engine to drive the front wheels - electric motor to drive the rear wheels - after activation of the electric motor, common drive via all four wheels

No single option code offer. Perfect integration of Apple iPhone / iPod Touch and selected Android devices in the vehicle. MINI Connected specific apps contain country-specific details, information, FAQs and support: www.MINI.com/connected. Function and content updates and extensions/changes possible via the app store of the telephone service provider. In addition, all apps that are "MINI Connected ready" are supported. Information is shown in MINI look & feel in the display of the central round instrument, control is secure and intuitive using the MINI controller, also possible using the multifunction steering wheel. Audio output via the in-car audio system. Note: offer and functional scope can differ depending on equipment fitted and on country. We reserve the right to make changes to the graphics and to the functional scope of MINI Connected. A broadband data connection is needed; the costs this entails (e.g. data roaming) are part of the customer's contract with the mobile wireless network provider. The MINI Connected app is available free via the app store of the terminal device provider (check country-specific requirements and preconditions). Updates possible at no extra cost. Extensions might be subject to cost. If other MINI Connected compatible apps become available, they will be flagged / communicated accordingly ("MINI Connected ready"). Compatibility of terminal devices and functional scope of MINI Connected: MINI.com/connectivity.

6NT	MINI Connected XL	X	X	X	X	X	X	X	X	X	X	0,00	0,00	Mini Connected (option code 6NM) extended by an additional application: Journey Mate - personal mobility assistant, extended route planning by networking the app with contents such as navigation by smartphone, including outside the vehicle, parking space search, refuelling, weather, traffic (online traffic information), POIs / environmental information, etc. In addition, event lists are possible whilst driving (reminders / calls / meetings, etc.). Audio information about events during the Journey. Detailed description and functional scope of MINI Connected XL at: MINI.com/connected. Note: offer and functional scope can differ depending on equipment fitted and on country. Refer to the country-specific offer. We reserve the right to make changes to the graphics and to the functional scope of MINI Connected XL. A broadband data connection is needed; the costs this entails (e.g. data roaming) are part of the customer's contract with the mobile wireless network provider. The MINI Connected XL app Journey Mate is available free from the terminal device provider's app store (check country-specific requirements and preconditions). Updates possible at no extra cost. Extensions might be subject to cost. Compatibility of terminal devices with MINI Connected: MINI.com/connectivity.
